

Dear PSC

RECEIVED

MAR 30 2011

PUBLIC SERVICE  
COMMISSION

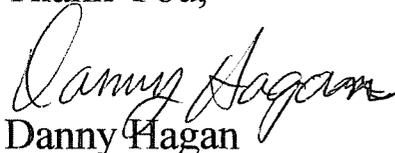

To Whom it may concern:

The rate increase that Kenergy has requested Case No 2011-  
00035.

The rate increase I can understand, but the increase in the customer charge on the bill is increasing from \$10.50 to \$13.00 has no reference to the rate increase. I feel like it is gouging the consumer.

Customers will pay \$2.50 more a month or \$30.00 a year whether they use any electric at all. I don't think they should be able to pass this fee on to the customers when it has nothing to do the electric rate increase.

Thank You,

Danny Hagan
